UDR

生物廁盆尿石污垢去除劑

Biological Urinal Drain Relief

環保生物科技

Environmental
Biodegradable

產品優勢 Product Advantage

無需拆除管道

NO EXCAVATION

UDR為生物尿石去除劑，無需使用任何機械設備或裝置，只需倒入適當份量即可達至暢通堵塞管道的效果。

UDR is a biological urinal drain relief which requires no excavation. Pouring appropriate amount into the urinal can unblock clogging pipe.

天然微生物配方

NATURAL MICROBIAL FORMULA

含有多種微生物，快速代謝大量酵素滲透堵塞管道的尿石並產生泡化作用，將頑固有機污垢分散及分解，隨著管道流走。

UDR consists of various groups of microbial that can promptly produce a large amount of enzyme. Enzymes permeate into the calculus urinarius and create foam due to biological reactions. Microbial scatter and decompose stubborn organic pollutant.

迅速清除尿石泥

PROMPTLY REMOVE BIO-SOLID

特殊配方能有效分解有機污垢，令到管道暢通無阻。整個分解過程只需5-10分鐘，且絕無二次污染。

Special formula can effectively decompose organic pollutant and result in unblocking clogging pipe. The decomposition process only requires 5 to 10 minutes with no secondary pollution.

產品效益 Product Benefit

降低維修及人手開支

REDUCE MAINTENANCE & MANUAL EXPENSE

無需花費大量金錢使用傳統機械打通方法。由於UDR不含腐蝕性，管道不受損害，大大減少維修次數及成本。

UDR is a low cost but high efficiency biological treatment comparing to traditional excavation method. Since it is non-corrosive, no pipe will be damaged. Thus the frequency and cost of maintenance are significantly reduced.

無阻洗手間運作

NO TOILET DOWN TIME

絕無影響洗手間正常服務運作，操作期間無需停止廁所使用。日常維護只需定期倒入適量的UDR便可達至長時間及穩定的管道暢通效果。

Zero effect on toilet regular operation. Pouring suitable amount of UDR in a regular basis can gain a long lasting and stable result of unimpeded pipe.

操作安全

SAFE APPLICATION

採用食品級產原料，100%安全無害藥性，不含任何強酸或腐蝕性物質，為天然生物科技產品。

Food level and 100% nontoxic material used. It does not contain any acid or corrosive substances.

卓越功能 UDR Excellent Function

2 x 4 升 Liter / 箱 case

6 x 1 升 Liter / 箱 case

► 產品描述 Product Description

高效清除廁盆/ 尿兜/ 去水渠積存之頑固尿石，使去水暢通無阻。含有天然微生物及酵素，不帶腐蝕性，無色、無味、無臭、無害，5-10分鐘見效。保護及防止管道淤塞及腐蝕。

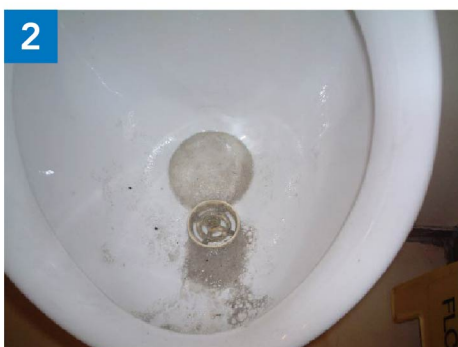

Efficient removal of bio-solids in toilet bowl, urinals and drains, remaining the urinal drain unimpeded. Contain natural microbial and enzyme which are colorless, tasteless, odorless, harmlessness. Result would be observed within 5-10 minutes. Protect piping system from silting up and corrosion.

消除臭味 Stench Removal

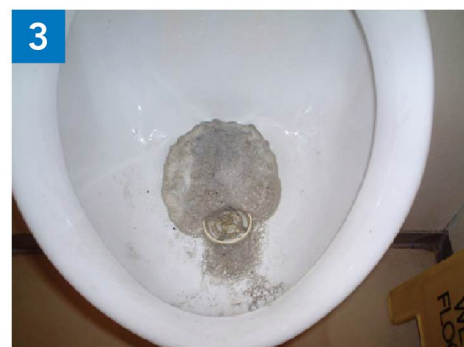

▲ 直接倒入適量的UDR於廁盆內，有效快速滲透管內堵塞物。

Directly apply UDR into the urinal with proper amount. Effectively penetrate the bio-solid blockage in the pipes.

▲ 約1分鐘後開始出現泡化現象，即UDR與有機污垢正在產生大量生物反應。

After 1 minute, foam will be observed due to the biological reaction of UDR and organic pollutant.

▲ 釋放氣泡造成其內部結構的鬆動，再而被分解消散。約5分鐘後已觀察到被分解的污泥分子。

Liberating air bubble conversion from a liquid to a gas represents a volume expansion whereby the compacted soil is "lifted" and air space restored to the soil structure.

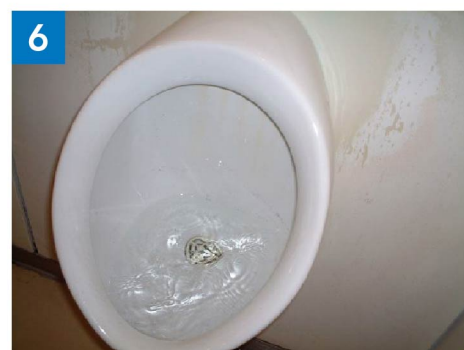

▲ 整個分解過程約10分鐘後完成，泡沫將呈現深黑色，管道尿石污垢已全面分解。

The whole decomposition costs around 10 minute. The bubbles are in dark black which reveals the accomplishment of bio-solid decomposition.

▲ 其後倒入大量清水，清理泡沫污垢。

Pour water into the urinal to clear all oxidized pollutant.

▲ 由於尿垢已被完全分解，尿盆管道暢通，去水速度回復正常並出現水旋渦。

Since all bio-solids are completely decomposed, urinal pipe is unblocked. The speed of drain is returned to normal and thus whirlpool appears.

我創造 · 我重視
We Make · We Care

卓滙專注關顧客戶所需，運用我們的專業為企業提供最合適的衛生清潔方案，與客戶共同努力達致理想的衛生環境及企業形象。

We are absorbed in caring every drop of our customers, apply our professional knowledge to customers, provide with appropriate solutions to achieve the highest level of hygienic environment and corporate image.
